*Ecocriticism in Malayalam Mar 20 2022 The global trend in the scholarly field of ecocriticism (or, broadly, environmental humanities) is shifting towards localized sub-areas. This shift has been instrumental in canonizing local, subaltern, postcolonial, and unheard voices in ecocriticism. Such ecocriticism has gained relevant significance in the disciplines of humanities and social sciences, and boldly displays diverse ecocultural perspectives on communities, societies, languages and literatures—all of these being distinctly different from each other. Weaving a unique, ecocritical narrative from the rich literary and cultural texts belonging to Kerala, this volume presents several ecocritical perspectives, written by award-winning writers in Malayalam.*

*Malayalam Verbs May 22 2022 This book, using Malayalam as a case study, provides an in-depth exploration of how inflectional suffixes should be separated from the verb and the implications this has for the syntax and semantics. Past work has proposed that Malayalam lacks a Tense Phrase and tense morphology, i.e. is 'tenseless'. However, this book shows that Malayalam behaves differently from other tenseless languages and that it does have tense morphology. It also provides evidence that there is a Tense Phrase in the syntax. In addition, it examines what have been called the two 'imperfectives' and argues that one is a type of progressive, while the other is a pluractional marker and shows that Malayalam lacks perfect morphology and a Perfect Phrase in, minimally, Universal perfects. With respect to finiteness, among other things, it argues that Conjunctive Participles are best analyzed as a type of absolutive adjunct and that -athu 'gerunds' involve nominalization above the Tense Phrase-level. This book will be a valuable resource for anyone interested in cross-linguistic variation in Tense-Aspect-Modality and/or the morphosyntax or morphosemantics of Dravidian languages.*
