She travels back to Australia with her aunt Liz (Peter's sister), who has been living in London for many years. Coming home to the family cattle station, Mullinjim, is a huge step for both women, as they've been trying to escape certain things about their past they'd rather forget. Peter is too sick to look after Mullinjim so, during a hot and dry November, Bella takes care of most of the cattle work with Liz's moral support. When Bella finds herself having to work with her old flame Gabe Mitchell to clear firebreaks and save bogged cattle from muddy dams, the attraction between them is as strong as ever. Then Bella's French boyfriend arrives to surprise her. Tensions abound! Meanwhile, romance blossoms for Liz too, and she must finally make a difficult confession about her past. The individual stories of Bella and Liz play out alongside Peter's eventual return to Mullinjim and a happy family reunion dinner hosted by Zoe and Mac (the lead characters in Zoe's Muster, now happily married). Emotions are already running high when Peter dies. All seems lost. Now, Bella and Liz are both forced to dig deep to make the right decisions about their futures. Will they find the courage to put the past behind them and reach for happiness at last? "Explores the lives, hardships, and successes of ten families that homesteaded in Jackson Hole, Wyoming during the late nineteenth and early twentieth centuries. NEW YORK TIMES BESTSELLER • The Academy Award–winning director of *Free Solo* and National Geographic photographer presents the first collection of his iconic adventure photography, featuring some of the greatest moments of the most accomplished climbers and outdoor athletes in the world, and including more than 200 extraordinary photographs. “An extraordinary work of art.”—Jon Krakauer Filmmaker, photographer, and world-class mountaineer Jimmy Chin goes where few can follow to capture stunning images in death-defying situations. There and Back draws from his breathtaking portfolio of photographs, captured over twenty years during cutting-edge expeditions on all seven continents—from skiing Mount Everest, to an unsupported traverse of Tibet’s Chang Tang Plateau on foot, to first ascents in Chad’s Ennedi Desert and Antarctica’s Queen Maud Land. Along the way, Chin shares behind-the-scenes details about how he captured such astounding images in impossible conditions, and tells the stories of the legendary adventurers and remarkable athletes he has photographed, including Alex Honnold, the star of his Academy Award–winning documentary film *Free Solo*; ski mountaineer Kit DesLauriers; snowboarder Travis Rice; and mountaineers Conrad Anker and Yvon Chouinard. These larger-than-life images, coupled with stories of outsized drive and passion, of impossible goals with life or death stakes, of partnerships forged through incredible hardship, are sure to inspire wonder and awe. Jackson Hole features the greatest vertical drop of any ski resort in the United States, and has extremely varied terrain. Gonzales tells the whole story, past and present, of this daunting but irresistible mountain. He covers the geography, geology, and history of the area, and devotes a full chapter to its development by pioneer Paul McCollister. Matteo Andreani, surnommé Le Devin, prend la tête de la Banque Centrale Européenne et doit faire face à une crise mondiale. Matteo Andreani est au faite de sa gloire. Surnommé Le Devin pour sa faculté à prédire le cours des marchés, ce financier de 40 ans rêve de diriger la Banque Centrale Européenne. Un accident d’avion sur la piste de Jackson Hole, le village du Wyoming où se réunissent chaque été les grands argentiers de la planète, lui en offre l’opportunité. Il est à peine nommé président de la BCE que des tensions internationales sur le marché de l’énergie précipitent une crise mondiale. Les marchés dégringolent, Chinois et Américains s’affrontent, faisant les beaux jours des crypto-monnaies et de la Camorra. Une réunion de la dernière chance se tient secrètement à Jackson Hole. Dans ce petit village perdu des Montagnes Rocheuses, les banquiers ont 48 heures pour sauver l’économie mondiale. Un roman sombre et foisonnant, qui révèle les arcanes du pouvoir économique mondial. Que préparent les grandes institutions financières dans le petit village de Jackson Hole ? Découvrez sans tarder les coulisses de l’économie mondiale dans ce thriller sous haute tension ! EXTRAIT Enzo contemple Matteo avec des yeux ronds et une expression de stupéfaction totale. Le jeune banquier milanais est pourtant issu des meilleures universités financières du monde, et possède un cursus absolument parfait, mais là, il est incapable d’articuler la moindre phrase. Il reste face au Président, les bras ballants, ses longs doigts crispés sur une liasse de documents de la plus haute importance à signer. La question de Matteo était simple : « Enzo, si vous étiez à ma place, quel modèle monétaire mondial

proposeriez-vous ? Et pourquoi ? » Un sommet monétaire a été convoqué de toute urgence pour la semaine suivante au Luxembourg, Matteo et Enzo ont travaillé en début de matinée sur la liste des collaborateurs et les études à finaliser avant ce sommet. Tant qu'ils se cantonnent aux aspects techniques, Enzo se montre d'une efficacité remarquable, mais dès qu'il tente de le sonder sur le fond des problèmes économiques, Matteo le voit se refermer. Alix lui manque cruellement car elle était la seule qui se permettait de lui dire ses quatre vérités. Elle savait répondre à ses questions par d'autres questions, qui amenaient Matteo à préciser et affermir sa pensée. Toute son équipe de Peebleback Brothers lui manque. Il les avait choisis un à un, tant pour leurs talents de spécialistes que pour la diversité de leurs opinions, afin d'enrichir les débats stratégiques. Ici, à la BCE il a hérité d'un management extrêmement qualifié mais totalement administratif : tous ses collaborateurs sont pétris d'un tel sens du service public et du devoir que leurs identités individuelles semblent s'être fondues dans un projet qui les dépasse, un peu comme les monnaies nationales se sont fondues dans l'euro. Avec eux, Matteo dispose d'une machine extrêmement efficace et réactive, et cependant nettement moins innovante que sa meute de hyènes de PBB. Tout doit venir d'en haut, du Président ou des autorités compétentes disposant d'un mandat explicite. Matteo se retrouve isolé dans la prise de décision et dans la planification. Il en est à ce point de ses réflexions lorsqu'il se rend compte qu'Enzo est toujours pétrifié face à son bureau. — Excusez-moi, Enzo. Nous avons beaucoup à faire. Passez-moi ces documents, per favore. À PROPOS DE L'AUTEUR Karel Gaultier est associé dans une banque privée. En choisissant d'écrire un roman, il s'est offert la liberté de la vérité. For 8000 years Native American lived in and around the Jackson Hole country of northwestern Wyoming. Combining archeological, ethno- historic, and ethnographic data, we examine the lifeways of these peoples and their relationships with the land itself. We see some 6000 years ago the establishment of an adaption which focused upon plants, particularly root crops, and fishing in the summer, and hunting in the winter. It remained stable until about A.D. 1600 when the migration of Shoshonean speakers into the area replaced the local inhabitants. Within 100 years a new culture centered upon bison hunting and the domestic horse evolved, but this adapta- tion, too, fell before the advancing white civilization. Each of these cultures is analyzed centering on the theme of their perspective of the Jackson Hole environment. The author of eighteen spellbinding detective novels set on the Navajo Nation, Tony Hillerman simultaneously transformed a traditional genre and unlocked the mysteries of the Navajo culture to an audience of millions. His best-selling novels added Navajo Tribal Police detectives Joe Leaphorn and Jim Chee to the pantheon of American fictional detectives. Morris offers a balanced portrait of Hillerman's personal and professional life and provides a timely appreciation of his work. In intimate detail, Morris captures the author's early years in Depression-era

Oklahoma; his near-death experience in World War II; his sixty-year marriage to Marie; his family life, including six children, five of them adopted; his work in the trenches of journalism; his affliction with PTSD and its connection to his enchantment with Navajo spirituality; and his ascension as one of America's best-known writers of mysteries. Further, Morris uncovers the almost accidental invention of Hillerman's iconic detective Joe Leaphorn and the circumstances that led to the addition of Jim Chee as his partner. Hillerman's novels were not without controversy. Morris examines the charges of cultural appropriation leveled at the author toward the end of his life. Yet, for many readers, including many Native Americans, Hillerman deserves critical acclaim for his knowledgeable and sensitive portrayal of Diné (Navajo) history, culture, and identity. At the time of Hillerman's death, more than 20 million copies of his books were in print, and his novels inspired Robert Redford to adapt several of them to film. In weaving together all the elements of Hillerman's life, Morris drew on the untapped collection of the author's papers, extensive archival research, interviews with friends, colleagues, and family, as well as travel in the Navajo Nation. Filled with never-before-told anecdotes and fresh insights, Tony Hillerman will thrill the author's fans and awaken new interest in his life and literary legacy. Winner of the Los Angeles Times Christopher Isherwood Prize for Autobiographical Prose Named a Best Book of the Year by NPR, the Washington Post, TIME.com, and Kirkus A Millions Most Anticipated Book of the Year A USA Today Book Not to Miss A LitHub Best-Reviewed Book of the Year The final installment in three-time Booker Prize nominated Deborah Levy's Living Autobiography-a boldly intimate meditation on home and the specters that haunt it. "Three bicycles. Seven ghosts. A crumbling apartment block on the hill. Fame. Tenderness. The statue of Peter Pan. Silk. Melancholy. The banana tree. A love story." Virginia Woolf wrote that in order to be a writer, a woman needs a room of one's own. Now, in Real Estate, acclaimed author Deborah Levy concludes her ground-breaking trilogy of living autobiographies with an exhilarating, boldly intimate meditation on home and the specters that haunt it. In this vibrant memoir, Levy employs her characteristic indelible writing, sharp wit, and acute insights to craft a searing examination of the poetics and politics of ownership. Her inventory of possessions, real and imagined, pushes readers to question our cultural understanding of belonging and belongings and to consider the value of a woman's intellectual and personal life. Blending personal history, gender politics, philosophy, and literary theory, Real Estate is a brilliant, compulsively readable narrative about the search for home. "Billionaire Wilderness offers an unprecedented look inside the world of the ultra-wealthy and their relationship to the natural world, showing how the ultra-rich use nature to resolve key predicaments in their lives. Justin Farrell immerses himself in Teton County, Wyoming--both the richest county in the United States and the county with the nation's highest level of income inequality--to investigate interconnected questions about money, nature, and community in the twenty-first century. Farrell draws on three years of in-depth interviews with "ordinary" millionaires and the world's wealthiest billionaires, four years of in-person observation in the community, and original quantitative data to provide comprehensive and unique analytical insight on the ultra-wealthy. He also interviewed low-income workers who could speak to their experiences as employees for and members of the community with these wealthy people. He finds that the wealthy leverage nature to climb even higher on the socioeconomic ladder, and they use their engagement with nature and rural people as a way of creating more virtuous and deserving versions of themselves. Billionaire Wilderness demonstrates that our contemporary understanding of the relationship between the ultra-wealthy and the environment is empirically shallow, and our reliance on reports of national economic trends distances us from the real experiences of these people and their local communities"-- This richly illustrated volume, A Place Called Jackson Hole, provides a glimpse into the colorful human experience in Jackson Hole. This study was developed by the National Park Service, and focuses on the importance of the park's cultural resources- from American Indian prehistoric life, the early Euro-American explorers, and the more recent settlement period - that left a legacy of over 160 historic structures in Grand Teton National Park.
