Contents include: In Dreams * Video * Star Wars * Hedwig's Theme * Fiddler on the Roof * What a Wonderful World * Soak up the Sun * Over the Rainbow * The Lion Sleeps Tonight. (Faber Piano Adventures). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. Lessons for Living (volume 2) is a curriculum designed to help Christian leaders shepherd, mentor, and disciple others in the various aspects of evangelism as prescribed in God's Word. This study offers weekly reminders about the doctrine of evangelism and real-life application and scenarios that Christians face each day as they share the gospel of Jesus Christ with others. Lessons for Living encourages readers to spend time in the Word of God, and can be used individually or within study groups, discipleship groups, Sunday School classes, weekly Bible Studies, or life-enrichment groups. Our desire is that these lessons, each outlined with a Key Verse, Discussion Questions, and a Final Thought to Remember, encourage each reader to dig deeper into the Word of God. "To reach their potential, children need an engaging environment and a reason to learn. This book is aimed at helping teachers implement quality Common Core instruction around this principle." -Gretchen Owocki The quality of instruction is the most important factor in helping students meet the Common Core Standards. That's why Gretchen Owocki's Common Core Lesson Book empowers teachers with a comprehensive framework for implementation that enhances existing curriculum and extends it to meet Common Core goals. "Children," writes Gretchen (author of The RTI Daily Planning Book), "need teachers who believe in the power of meaningful reading as a context for instruction." She breaks the CCSS reading standards into manageable chunks that emphasize engaged, authentic reading and differentiated teaching. For each standard, she offers: a clear description of what it asks from students an instructional decision tree that connects assessment to planning instructional strategies that gradually release responsibility to students techniques for intensifying instruction when readers need more support. "In implementing the standards," writes Gretchen, "we want children to deeply engage with multiple forms of reading. I wrote this book to offer encouragement to stay grounded in meaningful instruction, and to offer a set of strategies that emphasize meaningful reading." Respond to the Common Core with The Common Core Lesson Book-you'll help students meet the standards, and so much more. PLCs and book-study groups! Why do the rich perpetuate their wealth and poor people seem to perpetuate their financial struggles? The Home School of Abundance expresses the power of the home in laying the right foundation for financial success. If we understand that what happens to an individual can often be traced back to early childhood influences, we must explore the roots of financial struggles. Parents and other significant others owe a responsibility to be deliberate in the process of laying that healthy blue print on which future financial experiences can be built on. (Faber Piano Adventures). Good sightreading skill is a powerful asset for the developing musician. Carefully composed variations of the Level 2B Lesson Book pieces help the student see the "new" against the backdrop of the "familiar." Fun, lively characters instruct students and motivate sightreading with a spirit of adventure and fun. The Lesson Book is meant to be something that brings peace and rest to moms while giving children more freedom and enjoyment in learning. This is not a workbook. Workbooks ask specific questions and require specific answers. This one is not about specifics, just about giving a framework so that you, the teacher, have less work to do. YOU decide what needs to be copied and dictated. Your child decides what is important enough to be recorded. Besides the written word, there are plenty of spaces for drawings and doodlings (or anything else you want to add, such as a clipping of a picture or a bunch of stickers). In this way it becomes less of a "schoolbook" and more of a memory-keeper for actual learning. This level is for those children who are doing well at reading whole sentences and paragraphs and have a good understanding as to the construction of words and sentences. I love to use this one with the McGuffey's Second Eclectic Reader (original version from Mott Media), but you could also use it with a simple book such as Arnold Lobel's Frog and Toad.
