This is the first scholarly study of the Royal Navy during the reigns of Charles II and James II. Historians have long viewed the Restoration Navy through the eyes of Samuel Pepys, the greatest diarist and naval administrator of the age. Perceptive and intelligent as Pepys was, he presented only a one-sided view of the Navy, that of a bureaucrat attempting to reorganize it. J. D. Davies assesses this traditional picture of the Restoration Navy in the light of recent scholarship, using the evidence not only of Pepys but of his contemporaries. He examines the reactions of naval personnel to the demands imposed by Pepys, and analyses the structure of the service. He also explores the lives and attitudes of the men (the 'tarpaulins') and their officers - the quests for promotion, enrichment, and glory; the very different problems posed by peace and war; the nature of life at sea; and the role of the Navy in national life. Gentlemen and Tarpaulins provides a fascinating glimpse into the history of the Royal Navy. Describes the history, production, and different models of the Toyota Land Cruiser, a sport utility vehicle originally created to allow police and military to travel off paved roads. The story of John 'Roothy' Rooth's iconic 40 series truck Milo. Working away from trends in government policy, this book takes a future-oriented re-imagining of schools with a focus on four innate human capacities: collaboration, critical reflection, communication and creativity. Miranda Jefferson and Michael Anderson draw together examples of practice from around the world to provide a reimagining of education. They show how our schools can be sustainably transformed to be places of support, challenge and joy in learning, responsive to students' needs and the needs in our workplaces and wider society. Readers are empowered to use knowledge and experience to create the reality they would like to see in their school, building engaged, innovative and active learning, pedagogy curriculum and leadership. Key ideas are summarised at the end of each chapter along with an extensive referencing and bibliography, and a supporting glossary. Electrical Contracting, Second Edition is a nine-chapter text guide for the greater efficiency in planning and completing installations for the design, installation and control of electrical contracts. This book starts with a general overview of the efficient cabling and techniques that must be employed for safe wiring design, as well as the cost estimation of the complete electrical contract. The subsequent chapters are devoted to other electrical contracting requirements, including electronic motor control, lighting, and electricity tariffs. A chapter focuses on the IEE Wiring Regulations and Statutory Regulations to ensure compliance to the fundamental requirements for safety. The discussion then shifts to visual inspection and testing in accordance with the IEE Wiring Regulations. The last chapter describes the special role of the Joint Industrial Council for Electrical Installation Contracting in introducing a rational and equitable incomes policy into the industry. This text includes many worked examples and illustrations to demonstrate how the technical and commercial aspects are put into practice. Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, Torn Trousers is a real modern fairytale about getting exactly what you wished for...and then having to live with it.
