Fall to PiecesA Memoir of Drugs, Rock 'n' Roll, and Mental IllnessHarper Collins

Witchcraft...or murder? 1763. With the end of the French and Indian War and a new king on England's throne, it seems the colonies have entered a peaceful and prosperous new era. And though the fashionable ladies of Boston might find Bracebridge altogether too peaceful to be stimulating, young widow Charlotte Willett likes it just as it is. But the calm of the little village is about to be shattered by a wealthy stranger who bursts into flame by the side of the road--and then disappears! The townspeople begin muttering about witchcraft and the devil's hand, casting suspicious glances at a local Frenchman. But Charlotte, who has a keen interest in human nature, and her neighbor Richard Longfellow, gentleman farmer and scientist, have more earthly speculations about the merchant's disappearance. Was it murder, or an elaborate scheme? And, with two mysterious deaths to follow and a tavern full of superstitious rabble, will Charlotte and Longfellow uncover the answers before it's too late?

Nonlinear Parameter Optimization Using R Tools

The Wonder of All Things

Nonlinear Parameter Optimization Using R John C. Nash, Telfer School of Management, University of Ottawa, Canada A systematic and comprehensive treatment of optimization software using R In recent decades, optimization techniques have been streamlined by computational and artificial intelligence methods to analyze more variables, especially under non – linear, multivariable conditions, more quickly than ever before. Optimization is an important tool for decision science and for the analysis of physical systems used in engineering. Nonlinear Parameter Optimization with R explores the principal tools available in R for function minimization, optimization, and nonlinear parameter determination and features numerous examples throughout. Nonlinear Parameter Optimization with R: Provides a comprehensive treatment of optimization techniques Examines optimization problems that arise in statistics and how to solve them using R Enables researchers and practitioners to solve parameter determination problems Presents traditional methods as well as recent developments in R Is supported by an accompanying website featuring R code, examples and datasets Researchers and practitioners who have to solve parameter determination problems who are users of R but are novices in the field optimization or function minimization will benefit from this book. It will also be useful for scientists building and estimating nonlinear models in various fields such as hydrology, sports forecasting, ecology, chemical engineering, pharmaco-kinetics, agriculture, economics and statistics.

An innovative and comprehensive book presenting state-of-the-art research into wireless spectrum allocation based on game theory and mechanism design.

How Intellectual Suicide Created the Modern Islamist Crisis

The book is the compilation of the research work conducted at macro/micro levels by eminent scientists and teachers of the country with diverse specializations. These scientists/teachers have willingly contributed their work in the form of the articles to this volume addressing various dimensions of the food security and livelihood scenario in various states of the country and the country as a whole. The book is most relevant in the present day owing to the fact that the food security and livelihood is the priority issue confronting the country, as also it demonstrates the use of quantitative techniques in estimating demand and supply gaps. The strategies for conservation of the food energies through proper processing and their value addition for enhancing livelihood options has been taken care of. The nutritional demand-supply gaps, malnutrition and other related issues are also addressed comprehensively. The book is expected to serve as a reference material for the researchers, planners and the public representatives for understanding the conceptual frame of livelihood and food security besides devising pragmatic policies in achieving the food security through attainment of livelihood security at macro and micro levels.

Fall to Pieces is a beautifully written, visceral, roller coaster ride inside bipolar disorder, rock 'n' roll, celebrity culture, and the world of modeling. Mary Forsberg Weiland, ex-wife of the late Scott Weiland, front man for Stone Temple Pilots and Velvet Revolver, tells a harrowing true story of depression, drug addiction, and mental illness with candor and, often, humor. Co-written with veteran journalist Larkin Warren, Fall to Pieces is a blistering, eye-opening memoir of Hollywood meltdown in the bestselling vein of Tatum O'Neal's A Paper Life and Valerie Bertinelli's Losing It.

A Memoir of Drugs, Rock 'n' Roll, and Mental Illness

The Story of a Red Woman and a White Man in the Lodges of the Blackfeet

The book you must read to understand the Islamist crisis—and the threat to us all Robert R. Reilly's eye-opening book masterfully explains the frightening behavior coming out of the Islamic world. Terrorism, he shows, is only one manifestation of the spiritual pathology of Islamism. Reilly uncovers the root of our contemporary crisis: a pivotal struggle waged within the Muslim world nearly a millennium ago. In a heated battle over the role of reason, the side of irrationality won. The deformed theology that resulted, Reilly reveals, produced the spiritual pathology of Islamism, and a deeply dysfunctional culture. The Closing of the Muslim Mind solves such puzzles as: Why the Arab world stands near the bottom of every measure of human development. Why scientific inquiry is nearly dead in the Islamic world. Why Spain translates more books in a single year than the entire Arab world has in the past thousand years. Why some people in Saudi Arabia still refuse to believe man has been to the moon.

Sometimes a girl can't help being a little bit naughty... Jada Dangerfield was living her fairy tale-married to her high school sweetheart and working in her dream job-until it all came crashing down. Struggling to make ends meet, the unemployed divorcee stumbles upon a decidedly naughty new income stream, selling erotic toys to the women of her small hometown. And when Jada gets the chance to host a "Naughty Nights" party at the home of her upright life-long nemesis Mason Coleman, she realizes it's the perfect way to get under the skin of the one person who has always made her feel as if she wasn't good enough. Mason Coleman relishes his career as a high-powered tax attorney, but his most important job is keeping the promise he made to his father to watch out for his baby sister...even though she hasn't been a "baby" in thirty years. When he learns that his sister may be in trouble, Mason is forced to call on the one person he's never been able to abide, her brash and sexy friend, Jada Dangerfield. There's just one problem...how does he stop Jada from corrupting his sister with her kinky new business? When this unlikely pair is forced to work together, things get a little bit naughty. This is a novella of approximately 38,000 words. Be sure to check out book one in the "Moments in Maplesville" novella series, A PERFECT HOLIDAY FLING!
